

Quality Statement and Goals

Quality Statement

Universal Fibers® is committed to being a worldwide market leader by making innovative products of excellent quality. Year over year, we aim to reduce our reliance on non-renewable resources and to make fibers in more efficient ways, whilst continuously improving quality. It is our policy that all associates should participate in making Universal Fibers a quality oriented, safe and profitable company.

Quality Goals

The measurable quality objectives are:

- Associate safety
- Continuous improvement of product quality and customer service
- Productivity to meet set targets
- Sales growth and strategic improvements
- Reduction of energy used per pound of fiber produced
- Scrap reduction
